

Are your periods a pain?

Join our study
exploring whether
medicinal cannabis
can help relieve
Period Pain.

Researchers at Western Sydney University are seeking women 20+ who are suffering from Primary Dysmenorrhea (painful periods) to join a study to see whether medicinal cannabis treatments can help.

- It's easy! Participate online and via telehealth.
- Expert medical support provided free of charge.
- 20% discounted off prescribed cannabis medicines.

Call 1300 413 379 or scan the QR code to join the study or find out more.
